

Young Naturalists

A Year-Long Program for Homeschooled Students

Is your child passionate about nature and the environment? Enroll them in our unique year long program designed specifically for conservation enthusiasts!

Program Details

Ages: 10-14

Time: 9:45 AM- 2:00 PM

Schedule: Student drop-off twice a month from August- May

1 Conservation Class per month

1 Special Project or Hike and ID Day per month

What to Bring: A "pack in - pack out" lunch and weather appropriate clothing

Cost: FREE

Join us for an immersive learning experience with specialists across a range of fascinating fields, including ornithology, dendrology, herpetology, botany, and more.

Our program offers:

- **Hands-On Learning:** Learn various conservation techniques through interactive activities.
- **Ecology Studies:** Develop a deep understanding of ecological principles and environmental science.
- **Career Insights:** Explore potential career paths through real-world experiences and professional guidance.
- **Special Projects:** Become an environmental hero by taking an active role in fun and impactful conservation projects!

Equip your young naturalist with the knowledge and skills to grow in the world of conservation. Spaces are limited, so secure your spot today and help your child embark on this extraordinary educational journey! For more information and to receive a registration link.
